

10/16/06

Conditions for Approval of EQ Apex Plans

1. HAS Plan

General

All notifications required to be made to DENR must be made in a timely fashion to allow DENR sufficient time to respond effectively. If these notifications are not made in a timely fashion, DENR may halt the proposed work or work underway until the agency can respond.

Section 2

ii) Priority Containers; EQ will notify DWM if and when these containers are identified in Bay 1.

iii) EQ will notify the Apex Fire Dept. when operations begin in Bay 1, Bay 3 and Bay 4.

2. Waste Management Plan

No Additional Conditions

3. Groundwater/ Ash/Runoff Sampling Plan

Plan is approved and may be implemented with the required notifications and agreements to DENR as specified in plans, meetings or requests from DWM.

Prior to implementing the ash sampling and groundwater sampling, the specified DWM and DAQ contact person must be notified, with sufficient time to allow the collection of split samples.

The Waste Characterization Plan is approved if the preservative used is as specified in Table 2 of Section 3.3.3, as previously requested.

SAP for Groundwater, Ash / Residue, and Collected Firewater Runoff is approved, contingent upon compliance with the notifications required above.
